**If you only work with the student during a single routine or subject (e.g. you are the P.E. teacher or you teach the student in one subject) you can disregard the routines analysis and go on to Part B.

<u>ROUTINES ANALYSIS</u>: Complete the student's daily schedule (<u>Time & Routine/Subject</u> columns). Next rate the <u>Likelihood of Problem Behavior</u> for each routine. *For routines rated 5 or higher*, complete the final two columns: <u>Identify the Problem Behavior</u> and <u>Current Interventions</u>.

Part B

Student	Staff	Dates	

Identify a student with recurring challenging behavior. Focus on a single routine (see Part A to identify and prioritize a routine) and track occurrences of the problem behavior during the prioritized *routine (subject or time of day)*. Each time a problem behavior occurs during this routine over the next weeks document the A-B-C sequence. Use the data collected to identify patterns or trends across occurrences to form a **Summary Statement** describing the student's behavior below.
